

# Elan Ness-Cohn, Ph.D.

📧 [nesscoder.com](mailto:nesscoder.com) ✉ [ness.cohn.elan@gmail.com](mailto:ness.cohn.elan@gmail.com) ☎ (847) 420-0296  
📄 [github.com/nesscoder](https://github.com/nesscoder) 🔗 [linkedin.com/nesscohn](https://linkedin.com/nesscohn) 📍 Chicago, IL

## SUMMARY

---

- **Complex thinker:** Nimble learner with a diverse repertoire of expertise – *e.g.*, math & science literacy, wet & dry lab experience, and educational & business pragmatism – motivated by solving multifaceted problems
- **Empathetic collaborator:** Intuitive, team-oriented leader – versed in bridging interdisciplinary & interpersonal communication gaps – with track record of driving high impact scientific discovery
- **Relentlessly curious:** Meticulous, strategically-minded analyst – armed with a breadth/depth of data science skills – adept at executing deep diligence & clearly communicating results to wide audiences

## EXPERIENCE

---

### Entrepreneurial Fellow – Chicago Biomedical Consortium (CBC) – Chicago, IL 2022–present

- ▶ **Led assessments to identify most promising early-stage therapeutic technologies:**
  - Part of four-Fellow cohort that over a year, assessed 21+ letters of intent (LOI), yielding 5 full scale assessments and 1 award (\$250K); led 6+ LOI & 1 full assessment; supported 11+ LOI & 4 full assessments
    - *LOI:* over stringent 3-week process developed case to (de-)prioritize projects; communicated results to academic/pharma/VC review boards (*e.g.*, ML-based drug tox screening of iPSC organoids – *deprioritized*)
    - *Full Scale:* through rigorous 10-week process developed technology positioning for microbial consortia platform in the context of current, financed, microbiome landscape; articulated investment thesis based on positioning, potential indications, financing risk, and go/no-go experiment to 30+ pharma & VC partners
- ▶ **Managed peers, faculty, and industry partnerships to advance translational research:**
  - Managing 2+ CBC funded projects; advising on experimental plans; establishing timelines & budgets; coordinating scientist & contractors to hit milestones (*e.g.*, pre-IND data package of myeloid cancer therapeutic)
  - Strategically advising 3+ academic labs on translational of early-stage research; guiding faculty in strategic positioning of assets; informing experimental plan based on key experimental benchmarks/regulatory milestones
- ▶ **Created business development infrastructure:**
  - Built and analyzed Chicago faculty database of 160+ members and 20+ success metrics; identified and contacted promising faculty to fill award pipeline; designed an OpenAI NLP-based automation for future pipeline searches

### New Product Planning Extern – Evozyne – Chicago, IL 06/2023–present

- ▶ **Building commercial case for new drug product pipeline:**
  - Bolstering new product planning strategy using data-driven insights; assessed commercial viability, forecasted revenue, positioned drugs, and cultivated stakeholder engagement with tailored KOL discussion guides

### Business Development Extern – Rhaeos, Inc – Chicago, IL 01/2023–04/2023

- ▶ **Shaped growth strategy for global deployment of core technology:**
  - Devised prioritization strategy for deployment of Rhaeos's FlowSense technology in low & middle income countries; built statistical models to estimate market size & designed qualitative research materials

### Life Science Analyst Extern – Back Bay Life Science Advisors – Boston, MA 11/2022–05/2023

- ▶ **Developed industry white paper:**
  - Distilled landscape analysis of deal flow in women's health space into an industry white paper to support firm marketing and inform consultancy's client recommendations for perspective partnerships/investments

### Ph.D. Candidate – Braun Lab, Northwestern University – Evanston, IL 2017–2022

- ▶ **Spearheaded multi-disciplinary research collaborations:**
  - Led 5 collaborative projects leveraging expertise in circadian biology and applied math; resulted in 3 oral podia, 7 posters at US & international conferences, and 3+ first author publications (*e.g.* *Science* and *Bioinformatics*)
- ▶ **Designed and taught biology, math, and programming courses:**
  - Designed an *Intro to Data Science Lab Course* and taught 5 grad and 2+ undergrad level courses in Cell Biology, Bioinformatics, Biostatistics, and Data Science; resulted in procurement of graduate level teaching certificate

► **Managed research team:**

- Mentored 11+ graduate and 2 undergraduate students in various computational research and data management techniques; led to the development of 1 software package and accompanying manuscript

► **Developed software:**

- Developed a suite of 3 open-source software packages for optimizing the design and analysis of \*omic time-series experiments for chronotherapeutic application with over 9K+ downloads and ~30hours/month usage

## EDUCATION

---

**Northwestern University** – Ph.D. (Biomedical Research) – *Evanston, IL* 2022

**MIT** – B.Sc. (Biology), Concentration (Education) – *Cambridge, MA* 2017

- **Honors:** Senior Thesis - Boit Prize for Engineering Writing
- **Jaenisch Lab:** *Engineering Human Pluripotent Stem Cells With Insulin Reporter to Model Type 1 Diabetes*
- **Kim Lab:** *Regulation of Stress Physiology & Longevity by the EIF3 Complex in C. Elegans*

**MIT** – Data Science and Machine Learning: Making Data-Driven Decisions – *Professional Certificate* 2023

## COMPUTATIONAL & TECHNICAL SKILLS

---

**Programming:** R • Python • Bash • R Shiny •  $\text{\LaTeX}$  • git • SQL • HPC (SLURM)

**Machine Learning:** Tidymodels • Keras • Tensorflow

**Data Mining:** statistical analysis • dimensionality reduction • clustering • visualization

**Modeling:** dynamical systems • topological analysis • toy model development

**Research:** algorithm & pipeline development • inter-disciplinary collaboration • software development

**Laboratory:** CRISPR/Cas-9 genome editing • plasmid design • molecular cloning • qPCR

**Market Intelligence:** primary market research (*e.g.* KOL/Physician interviewing)  
secondary data analysis (*e.g.* GlobalData, BioCentury, Pitchbook, Biomedtracker, *etc.*)

**Languages:** English • Hebrew

## SOFTWARE (HIGHLIGHTS)

---

**Fasano-Franceschini Test** – [R Package](#)

*An open-source implementation of the Fasano and Franceschini test – a 2-D Kolmogorov-Smirnov (KS) two-sample test*

**TimeCycle** – [R Package](#)

*A non-parametric method that leverages results from dynamical systems theory and algebraic topology to test whether a dynamical variable (gene expression) exhibits cycling dynamics – [Video Tutorial](#)*

**TimeTrial** – R Shiny Web Application: [Synthetic](#), [Biological](#)

*An interactive software suite that enables circadian researchers to perform head-to-head comparisons of four leading cycle detection methods using both synthetic and biological data – [Video Tutorial](#)*

*Additional work can be found on my GitHub profile: [github/nesscoder](#)*
